A Different Vision returns to Plymouth Center for the Arts! This is the fifth time over a span of 15 years that we have presented this show to an appreciative audience. It is a unique and popular exhibition that breaks traditional barriers by actively encouraging all visitors to experience and explore the art on display through touch and all other senses. The experience challenges the notion that sight is essential for creating and enjoying exceptional art, while emphasizing touch as a fundamental part of our daily lives and overall sensual experience.

Specifically designed to include visually impaired visitors to the Center, **A Different Vision 2D** and **3D** artworks will be available to be touched and considered by all.

"Three Stars for the Spring Moon"
